

1. **Problem**

What does the following logo stand for?

- (a) Technology company
- (b) Search engine
- (c) Pirate word
- (d) Programming language
- (e) Letter in the alphabet

**Solution**

The logo stands for the R system for statistical computing and graphics (<http://www.R-project.org/>).

- (a) False. R is an open-source project, not a company.
- (b) False. R is not a search engine.
- (c) False. This is usually spelt *Arrr!*.

- (d) True. R is a programming language.
- (e) False. Although R is (also) a letter in the alphabet, this is not what the logo represents.
